Preface

Welcome to the Earning Workbook One!

This workbook is designed for anyone who has completed the ACCL book and is ready to take the next step toward financial empowerment and personal growth. It provides you with the essential skills in Artificial Intelligence (AI), communication, creativity, and leadership, allowing you to start earning while you continue learning.

This workbook is not just for students—anyone can use it. Whether you're a student, a family member, or a community member, this book will guide you step-by-step on how to teach those closest to you, starting with small steps and expanding gradually. Dedicating just 35 minutes a day, you'll gain practical skills, build confidence, and start earning while making a positive impact on your life and those around you.

In just three months, you can earn 3,000 PKR per month, but as you continue to apply the strategies, you could easily reach 5,000 PKR and beyond. Each month, new tasks and strategies will help you enhance your earning potential.

Remember, this is not just about earning money; it's about empowering yourself and others, while building a brighter future together.

Let's unlock your potential and begin this exciting journey!

Sincerely,

Rehan Allahwala

What, Why, and How

What	Why	How
Learn how to teach AI concepts to family members, starting with your parents.	Teaching close family members builds confidence and communication skills while earning 1,000 PKR per student.	Dedicate 35 minutes daily to teaching, share AI benefits, and track progress using this workbook.
Expand your teaching to include both parents or other close family members in the second month.	Teaching two learners helps you grow your teaching skills, manage multiple learners, and earn 2,000 PKR monthly.	Convince additional learners by sharing success stories and teaching daily using structured tasks.
Add a third student (sibling, cousin, friend, uncle, or aunt) in the third month.	Teaching more learners increases your impact, enhances your leadership skills, and boosts income to 3,000 PKR monthly.	Use the same process for convincing, conduct individual or group sessions, and document your journey.
Develop leadership, time management, and communication skills through consistent teaching.	These skills are critical for personal and professional growth and are valued in every field.	Stay committed to the daily tasks and apply what you learn practically while maintaining consistency.
Utilize social media platforms to share your progress and attract new students.	Posting online builds your credibility, inspires others, and can help you expand your reach to the community.	Share pictures/videos of your classes on platforms like Facebook, LinkedIn, Instagram, and YouTube.
Set a goal to earn 5,000 PKR per month by the end of the third month.	Achieving this goal boosts your financial independence and gives you a clear sense of accomplishment.	Follow the next workbook's monthly plans, complete all tasks, and reinvest part of your income for growth.
Lay the foundation for scaling your teaching further, including introducing advanced skills like coding.	Scaling allows you to increase your impact, income, and expertise in teaching and earning simultaneously.	Prepare for future opportunities by mastering the ACCL program and introducing advanced skills gradually.

AI Computer Communication Literacy (ACCL)

The AI Computer Communication Literacy (ACCL) program is an innovative workbook designed to empower learners with essential 21st-century skills. It focuses on building a strong foundation in Artificial Intelligence (AI), digital communication, and creative problem-solving to prepare students for modern challenges and opportunities. This literacy program bridges the gap between theoretical knowledge and practical application, making it easier for learners to grasp and utilize advanced tools.

Core Components of ACCL

1. Artificial Intelligence (AI):

- Introduction to AI concepts and tools like Claude.ai and ChatGPT.
- Hands-on tasks such as creating basic applications, games, and automating processes.
- Developing critical thinking and problem-solving skills using AI.

2. Digital Communication:

- Training in social media platforms like Facebook, Instagram, LinkedIn, and YouTube.
- Practical lessons on responsible online behavior and creating impactful digital content.
- Strengthening communication through platforms like Cali Annie for real-time interactions.

3. Creativity and Leadership:

- Encouraging creative expression through Canva designs and storytelling.
- Leadership development by teaching others and managing learning projects.
- Confidence building by taking ownership of teaching and learning tasks.

Why ACCL is Important

1. Prepares for the Future:
2. AI and communication are integral to modern industries. ACCL ensures students are equipped with skills relevant to future careers.
3. Hands-On Learning:
4. Daily tasks like creating social media accounts, designing graphics, and conducting interviews make learning interactive and enjoyable.
5. Empowers Financial Independence:
6. Students use ACCL skills to teach others, charging nominal fees, and building confidence in earning while learning.

How ACCL Works

- Daily Tasks: Students complete activities such as setting up accounts, creating digital content, and solving coding challenges within 35 minutes daily.
- Teaching Model: From the 4th month, students start teaching their family members using the workbook, earning 1,000 PKR per month per learner.
- Scaling Up: Gradually, students expand to teaching more learners in their community, increasing their earnings and impact.

Outcomes of ACCL

- Practical Skills: AI usage, digital communication, and coding basics.
- Confidence: Ability to teach and lead projects.
- Financial Independence: Students start earning sustainably while developing valuable skills.

This literacy program is more than just a course—it's a roadmap to success, preparing learners to thrive in an AI-driven world.

ARE YOU READY TO TEACH AND START EARNING MONEY?

WEEK ONE

DAILY TASKS

DAY: 01-06

Day:1	Explain to your parents what AI is and its importance. Share examples of AI tools.	10/	
Day:2	Today, talk to your parents and convince them that you want to teach them using the ACCL book. Explain how this will help them and the family.	10/	
Day:3	If your parents were not convinced on Day 2, today focus on addressing their concerns. Explain how the ACCL program will benefit them and the family.	10/	
Day:4	Finalize the teaching plan with one of your parents (mother or father). Convince them to participate in daily 35-minute sessions and let them know you'll charge 1,000 PKR per month as part of your learning process.	10/	
Day:5	Soft Reminder: "Teach your parent (mother or father) today! Spend 35 minutes using the ACCL book. Post a picture/video of the class on Facebook, LinkedIn, Instagram and YouTube."	10/	
Day:6	Soft Reminder: "Teach your parent (mother or father) today! Spend 35 minutes using the ACCL book. Post a picture/video of the class on Facebook, LinkedIn, Instagram and YouTube."	10/

Fee Collected? ____ : Tracks if the 3,000 PKR fee was collected from the parents.

CONGRATULATIONS!
YOUR MONTHLY INCOME IS
RS. 3,000

Conclusion

Congratulations on successfully completing the Earning Workbook One!

Over the past three months, you've taken a remarkable journey toward building confidence, developing essential skills, and achieving financial independence. By starting small—teaching your parents or close family members—you have laid a strong foundation for personal growth and financial success.

Through dedication and consistent effort, you've learned how to:
Teach Artificial Intelligence (AI) and practical skills to others.
Earn a sustainable income by leveraging your knowledge and teaching abilities.
Expand your reach from family members to the community.
By the end of this workbook, you have reached an earning potential of 5,000 PKR per month and developed skills that will benefit you for a lifetime. This is just the beginning of your journey!

As you complete this workbook, it's time to take the next step. Now, start your next earning workbook to continue building on the momentum you've created. In the next phase, you'll expand your teaching, scale your earnings, and grow your impact even further. Remember, this journey is not only about earning money but also about making a difference in the lives of others. Keep learning, keep teaching, and keep inspiring. Your future is bright, and the possibilities are endless.

Good luck with your next earning workbook and beyond!
Sincerely,
Rehan Allahwala
